

Project 42 – Coastal Reporting Tool/Coastal Change Form

Overview – WCMC in collaboration with Wales Coast Path and Natural Resources Wales created a coastal change form for working professionals on the coast to record changes.

Aims Objectives

- Track patterns of erosion across Wales
- Create alert system for Wales Coast Path officers
- Find out types of changes occurring to the coastline

Collaboration with:

- Wales Coast Path
- Natural Resources Wales

Results:

- Web form created and tested
- Accompanying dashboard created for risk managers to see distribution and types of change
- Both deployed to WCMC website for ongoing use
